

## CIVIL ENGINEER – WATER AND WASTEWATER

Are you looking for a rewarding experience at work that fulfills both your professional and personal growth ambitions? Join our powerful organization where your contributions are directly related to the continued success of the team and *your personal ownership* in the firm.

### THE COMPANY:

Welch Comer & Associates, Inc. is a long-established, successful, 100% employee owned firm. We provide our employees with a stable, positive and rewarding workplace. We enjoy the challenge that comes with our work and the reward that success brings us and our clients. We provide engineering services to primarily public entities throughout North Idaho and Eastern Washington

### THE POSITION:

We are growing and in need of an experienced water/wastewater project engineer to join our collaborative, high-energy team.

You will be responsible for:

- Project and client management.
- Preparation of engineering reports, plans and specifications.
- Working independently and as part of a design team, under the supervision of a principal engineer.
- Communication and coordination with clients, engineers, surveyors, drafters/designers, sub-consultants and contractors to complete projects on time and within budget.
- Using engineering, spreadsheet and word processing software in support of design efforts.

The qualified candidate must have:

- Graduated with Bachelor of Science in Civil Engineering from an ABET accredited college and P.E. registration.
- Four to six years of experiences designing and observing construction of water systems (wells, distribution and reservoirs) and wastewater systems (collection and lift stations, treatment a plus) in the United States with increasing responsibility.
- Ability to effectively lead a project and manage engineers, designers, drafters, surveyors and administrative staff assigned to the project.
- Strong self-motivation instincts, excellent written and verbal communication skills with team members, clients, and public agencies.
- Working knowledge of AutoCAD Civil 3D and Water CAD.
- The ability to balance multiple projects and deadlines in a challenging and dynamic environment is essential.
- Experience with Idaho Department of Environmental Quality or Washington Department of Health a plus.
- Experience providing construction observation and working with contractors also a plus.

### THE LOCATION:

We have openings in our Coeur d'Alene, Idaho office, located a short stroll away from lake.

We have also have openings in our Spokane Valley, WA office.

WHY SHOULD YOU APPLY? Welch Comer provides competitive wages, benefits and bonus opportunities along with firm ownership and challenging work and career development. Welch Comer &

Associates, Inc. is an equal opportunity employer. Please respond to this posting with a cover letter, resume, and references to [wc@welchcomer.com](mailto:wc@welchcomer.com). We look forward to hearing from you!
